GENERAL NOTES

TIME: The syllabus is laid out for a co-op that meets 28 times (most common) during the year. You can adjust the lessons accordingly to shorten or length that time. One easy way to gain more time is to get the curriculum to the students a couple of weeks before your first meeting and assign the students week one or one and two (from the syllabus) before the first meeting.

PROJECTS: At the beginning of most sections, the student will build a project (car, circuit, etc.). They will use the project during that section’s experiments and activities. Because of this, the student should take their time building the project well. The directions on the CD are very clear. Students should be encouraged to take their time and follow all of the directions. You can either have the students build the projects at home, or in class. We have laid out this syllabus having students complete the projects at home, the experiments and activities in class. If you choose to build the projects in class, just allow enough class time and adjust the syllabus accordingly. Some thoughts on this:

1. Students build their projects at home.
   Advantage: they can take their time building it making sure they do a good job.
   Disadvantage: no direct teacher oversight – however the parent can oversee the building and the teacher can “fine tune” when the students bring the projects to class.

2. Students build their projects in class.
   Advantage: oversight of teacher
   Disadvantage: Can be challenging in class keeping all students focused and progressing at the same rate. May need longer class times on these “building” days.

CLASS SIZE/ORGANIZATION:

TIPS: We recommend the teacher go through the experiments on the CD before meeting. You don’t need to actually do the experiments before-hand, but if you have “seen” how the experiment is conducted, it will help facilitate a smooth experimentation process with the class.

TIME: Depending on how long you meet, your class size, and class make-up you may need to adjust the syllabus accordingly. Some helpful ideas:

• Not enough time in class to complete all the experiments/activities
  • Just assign the unfinished experiments/activities for homework.

• Everything is finished and there is still class time left
  • Go over logbook questions verbally to reinforce concepts the students learned. Instead of asking them as multiple choice, just reword from “which of the following best describes …” to “someone describe what …”
  • Go over experiment results
    • If varying results, see if the students can determine why they are different
    • Ask how can the concept learned be applied in day to day life

RESEARCH: If as the instructor you have time, it is great to bring outside research/stories into class. This could also be an extra credit assignment for the students. Give them a topic and have them present their research findings to the class.
## Syllabus for Exploration Education Science Curriculum

| 4    | **Complete before class:**  
       - Chapter 4.1 – 5.2 lessons only  
   **Complete in class:**  
       - Check student logbooks for completion of assignments  
       - Complete experiments/activities for lessons 4.1 – 5.2 | **Complete before class:**  
       - Chapter 4.1 – 4.4 lessons only  
       - Chapter 5.1 - 5.2 lessons only  
   **Complete in class:**  
       - Check student logbooks for completion of assignments  
       - Complete experiments/activities for lessons 4.1 – 5.2  
       - Complete lab chapter 4.4 |
| 5    | **Complete before class:**  
       - Chapter 5.3 Complete vocabulary quiz  
       - Chapter 5.3 Study for the section review quiz (you will take this quiz in class)  
       - Chapter 6.1 – 6.3 lessons only  
   **Complete in class:**  
       - Check student logbooks for completion of assignments and vocabulary quiz  
       - Take the section review quiz – Chapter 5.3  
       - Complete experiments/activities for lessons 6.1 – 6.3  
       - Note: on 6.1 make sure students know how to measure. Maybe do some in-class measuring | **Complete before class:**  
       - Chapter 5.3 Complete vocabulary quiz  
       - Chapter 5.3 Study for the section review quiz (you will take this quiz in class)  
       - Chapter 5.5 – build the steamboat (bring to class)  
       - Chapter 6.1 – 6.4 lessons only  
   **Complete in class:**  
       - Check student logbooks for completion of assignments and vocabulary quiz  
       - Take the section review quiz – Chapter 5.3  
       - Complete experiment design chapter 6.5 |
| 6    | **Complete before class:**  
       - Chapter 7.1 – 7.3 lessons only  
       - Chapter 8.1 – lesson and activity (worksheet)  
       - Chapter 8.2 – lesson only  
   **Complete in class:**  
       - Check student logbooks for completion of assignments including 8.1 worksheet  
       - Complete experiments/activities for lessons 7.1 – 7.3 and 8.2 | **Complete before class:**  
       - Chapter 7.1 – 7.4 lessons only  
       - Chapter 8.1 – lesson and activity (worksheet)  
       - Chapter 8.2 – lesson only  
   **Complete in class:**  
       - Check student logbooks for completion of assignments including 8.1 worksheet  
       - Complete experiments/activities for lessons 7.1 – 7.3 and 8.2  
       - Complete lab chapter 7.5  
       - If time, review for next week’s exam |
| 7    | **Complete before class:**  
       - Chapter 8.3 – 9.2 lessons only  
       - Chapter 9.3 Complete vocabulary quiz  
       - Chapter 9.3 Study for section review quiz (you will take this quiz in class) | **Complete before class:**  
       - Chapter 8.3, 8.4 – 9.2 lessons only  
       - Chapter 9.3 Complete vocabulary quiz AND section review quiz  
       - Chapter 8.5 – study for exam  
   **Complete in class:**  
       - Check student logbook for lessons and vocabulary quiz  
       - Take the section review quiz Chapter – 9.3  
       - Complete experiments/activities for lesson’s 8.3 - 9.2  
       - Complete chapter 9.4 |

**END OF FIRST QUARTER**

| 8    | **Complete before class:**  
  - Chapter 10.1 – 10.3 lessons and activities (building the circuit – bring to class)  
  - Chapter 10.3 – complete worksheet  
  - Chapter 11.1 (lesson only)  
  **Complete in class:**  
  - Check student logbooks for completion of assignments  
  - Spend time going over student’s circuits making sure they are functioning properly. Go through troubleshooting section in 10.3 (step 15) activity if necessary  
  Complete experiments/activities for chapter 11.1 | **Complete before class:**  
  - Chapter 10.1 – 10.3 lessons and activities (building the circuit – bring to class)  
  - Chapter 10.3 – complete worksheet  
  - Chapter 10.4 – complete lesson  
  - Chapter 10.5 – begin building mini-house  
  - Chapter 11.1 (lesson only)  
  **Complete in class:**  
  - Check student logbooks for completion of assignments  
  - Spend time going over student’s circuits making sure they are functioning properly. Go through troubleshooting section in 10.3 (step 15) activity if necessary  
  Complete experiments/activities for chapter 11.1 |
| 9    | **Complete before class:**  
  - Chapter 11.2 – 12.2 lessons only  
  **Complete in class:**  
  - Check student logbooks for completion of assignments including 10.3 worksheet  
  - Complete experiments/activities for lessons 11.2 – 12.2 | **Complete before class:**  
  - Chapter 11.2 -- 11.4 and 12.1 – 12.2 lessons only  
  - Chapter 11.5 – finish building mini-house (bring to class)  
  **Complete in class:**  
  - Check student logbooks for completion of assignments  
  - Check mini-house construction, troubleshoot if necessary.  
  - Complete experiments/activities for lessons 11.2 -- 11.3 and 12.1 – 12.2 |
| 10   | **Complete before class:**  
  - Chapter 12.3 – 13.3 lessons only  
  **Complete in class:**  
  - Check student logbooks for completion of assignments including 10.3 worksheet  
  - Complete experiments/activities for lessons 12.3 – 13.3 | **Complete before class:**  
  - Chapter 12.3 – 12.4, 13.1 – 13.3 lessons only  
  **Complete in class:**  
  - Check student logbooks for completion of assignments  
  - Complete wiring the house – lesson 12.5  
  - Complete experiments/activities for lessons 12.3 and 13.1 – 13.3 |
| 11   | **Complete before class:**  
  - Chapter 14.1 – 15.1 lessons only  
  - Chapter 14.2 Complete worksheet activity  
  - Chapter 14.3 Take vocabulary quiz  
  - Chapter 14.3 Study for section review quiz (you will take this quiz in class)  
  **Complete in class:**  
  - Check student logbooks for completion of assignments including 14.2 worksheet and vocabulary quiz  
  - Take the section review quiz – 14.3  
  - Complete experiments/activities for lessons 14.1 and 15.1 | **Complete before class:**  
  - Chapter 14.1 – 14.4 and 15.1 lessons only  
  - Chapter 14.2 Complete worksheet activity  
  - Chapter 14.3 Take vocabulary quiz  
  - Chapter 14.3 Study for section review quiz (you will take this quiz in class)  
  **Complete in class:**  
  - Check student logbooks for completion of assignments including 14.2 worksheet and vocabulary quiz  
  - Take the section review quiz – 14.3  
  - Complete experiments/activities for lessons 14.1 and 15.1  
  - Complete lab – lesson 14.5 |
